**HIGHLAND HAVEN UNVEILS REFURBISHED LUXURY SUITE**  
*Spring Special Offers Irresistible Incentives to Stay*

EVERGREEN, Colo.—The Highland Haven Creekside Inn is celebrating the complete remodel of one of its most premium accommodations, Gardener’s Cottage Suite, by offering a tempting spring special. Reserve the suite any Monday through Thursday during May and June and get the second night half off, along with a free copy of owner Gail Riley’s lifestyle cookbook, *“Colorado Cravings: Recipes and Romance from the award-winning Highland Haven Creekside Inn.”*

The Highland Haven has outdone itself with the three-month remodel, creating an oasis of sophistication, luxury and romance in a style Riley refers to as “Arabian Nights meets Colorado Chic.” The cottage’s main room features a sumptuous King Canopy bed in rich brown tones with plush pillows and triple sheeting. Adding to the romantic atmosphere is dark wood paneling, a moss rock fireplace, antique books, a glowing chandelier lamp and plush robes. The cottage offers a private new entry and view of bubbling Bear Creek, even from its luscious bed.

The crème de la crème of the remodel is the bathroom, which is triple the size of the previous one. It features custom tile and hardware, an inviting steam shower and a state-of-the-art, extra-large whirlpool tub that maintains a consistent temperature and offers jets galore and “chromatherapy” – soft, soothing lights.

“This remodel was truly a family affair. My husband Tom and son-in-law Blake handled the refurbishing, while my daughter Roxy and I did all the decorating,” said

Riley. “We all worked so hard to create an extraordinary retreat that our guests will never want to leave, continuing our mission to set the romantic bar very high.”
